The European Union of the Baltic Sea Region (EU20) in 2010, is the regional platform for cooperation between EU countries, and it has connected the socio-economic development debates between its individual parts and turned the global dialogues into area.

The overall goal of this horizontal action is to achieve territorial cohesion within the Baltic Sea region. As of 2020, the EU20 region will be a well-functioning zone of cooperation and development, driven on the one hand by the socio-economic development debates between its individual parts and turned the global dialogues into area.

**LAND-BASED SPATIAL PLANNING**

Land-based spatial planning has been carried out by all Baltic Sea region countries as part of their national strategic and local policy instruments. It has connected the socio-economic development debates between its individual parts and turned the global dialogues into area.

**GOAL AND TARGET**

The overall goal of this horizontal action is to achieve territorial cohesion within the Baltic Sea region. As of 2020, the EU20 region will be a well-functioning zone of cooperation and development, driven on the one hand by the socio-economic development debates between its individual parts and turned the global dialogues into area.

**HA “SPATIAL PLANNING” GOVERNANCE STRUCTURE**

The strategy of the Horizontal Action is to show up and apply cross-sectoral, cross-border Maritime Spatial Plans throughout the Baltic Sea region. To achieve this, the horizontal action has the following sub-groups:

1. **Working Group on Territorial Planning and Transport**
   - Focus: Territorial Planning and Transport
   - Task: To develop and implement spatial plans that promote sustainable transport networks and efficient land use across the entire Baltic Sea region.

2. **Working Group on Coastal and Marine Areas**
   - Focus: Coastal and Marine Areas
   - Task: To develop and implement spatial plans that protect and manage coastal and marine areas, ensuring sustainable development and conservation of marine ecosystems.

3. **Working Group on Land-based Spatial Planning**
   - Focus: Land-based Spatial Planning
   - Task: To develop and implement spatial plans that promote sustainable land use and development across the entire Baltic Sea region.

4. **Working Group on Cross-border Cooperation**
   - Focus: Cross-border Cooperation
   - Task: To develop and implement spatial plans that promote cross-border cooperation and integration, ensuring effective coordination and collaboration across the entire Baltic Sea region.

The working groups will focus on developing and implementing spatial plans that promote sustainable development and ensure territorial cohesion within the Baltic Sea region. They will work closely with other stakeholders and organizations to achieve their goals.
